LETTER OF RECOMMENDATION

Date: 26th November 2016

To Whom It May Concern

I, Keyur Suthar, Assistant professor of Sardar Vallabhbhai Patel Institute of technology, Vasad would like to recommending **Rushabh Shah**, one of my student, for the graduate course of Computer Science in your reputed University.

Rushabh is currently studying in fourth year of computer engineering. I tutored Rushabh in many of the programming subjects. He showed excellent performance in his practical skills and aced in java. He is very keen to learning new subjects and try to ace at it. He always seems to be going for concept learning and would not give up until understanding it fully. His ability to grasp new concepts quickly is impressive. Academically, I would rate Rushabh among the **top 10%** in the class of 160, although, his programming skill is what makes him stand out in the crowd. He is a humble and attentive guy who shares a good rapport with his teachers and classmates.

Under my guidance he has studied "**Object Oriented Programming using C++**" in 4th sem , "**Object Oriented Programming using Java**" in 5th sem in which he aced his grades. In 6th semester, he carried out research work in the field of image stitching under my guidance. He has developed a keen interest in the field of research since then. I was his guide in his subject of Design Engineering and he showed quick perception and reproduction of concepts which makes a potential research student. He used to show many innovative ideas of which many were in fact plausible with little knowledge.

Besides academics, Rushabh has also regularly participated at various events in college. His leadership skills were evident when he successfully organized technical events, namely "Azazel's Code" and "Tic-Tech-Toe", during the college technical festival. As a person, Rushabh maintains a calm composure and is a sanguine fellow who is always ready to help others.

I wish Rushabh all the very best in his academic pursuit and hope that he will get a chance to study the MS in Computer Science programme in your reputed university.

Mr. Keyur .S. Suthar
